

BMTEC easy-seeding

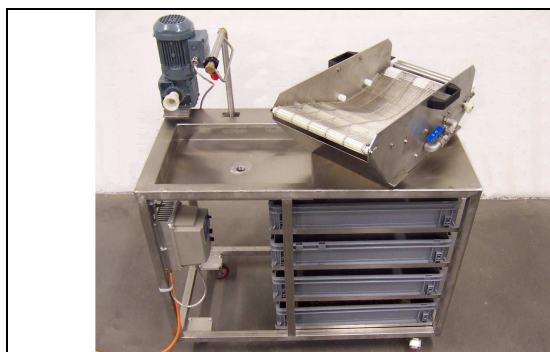

- For easy seeding of your dough
- Single or double sided seeding
- Integrated seed-trays
- Behind dough divider
- Behind the side-conveyor of your bread-roll machine
- Manual feeding

- Dough is sprayed with water
- Turn a handle and you have double sided moistening through an additional water bath

- After moistening the dough falls into a seed-tray
- The dough is put onto the baking tray by hand

- **cleaning:**
just take out the conveyor and put it into the washing machine
