

BMTEC make-up-tables

- Conveyor in the middle of the table
- 40cm wide working space
- length depending on the customer
- frame on wheels
- additional feet for a steady set-up
- storage space underneath
- easy speed adjustment
- very robust design

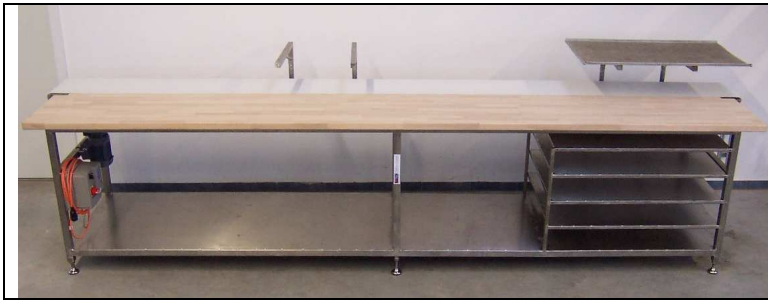

Or designed to your needs like the following examples:

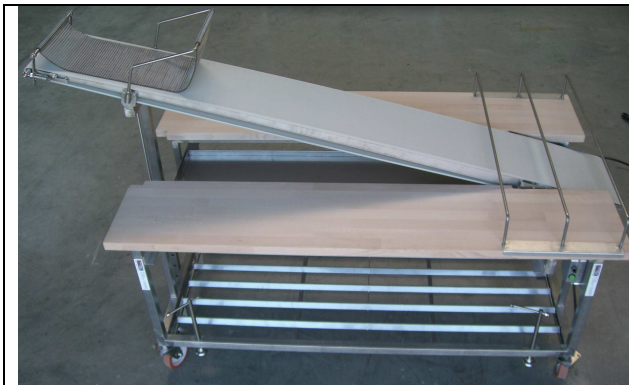

- conveyor-height can be adjusted to match the height of following machines (e.g. bread-rollers)
- working space: 2.500mm x 400mm
- infeed height: 800mm
- working height: 950mm

- infeed height: 650mm
- working space: 2.000mm x 400mm
- working height: 900mm
- bracket for drag-net (for pre-rolling bread)

- work-space only on one side
- stainless-steel shelf integrated in frame of the table
- deposit for baking trays
- without wheels

- conveyor to be height adjusted
- movable support bracket for trays

- drag-net (for pre-rolling bread)
- deposit underneath the table

- work-space to be folded down
- work-space made of Polyethylen

Any design varying with the examples given is possible upon request!
